Kit prices are dependent upon application.

The perfect match for the right  
stopping distance.

MAN Genuine brake discs and disc brake linings

## MAN is now offering brake disc and brake pad packages.

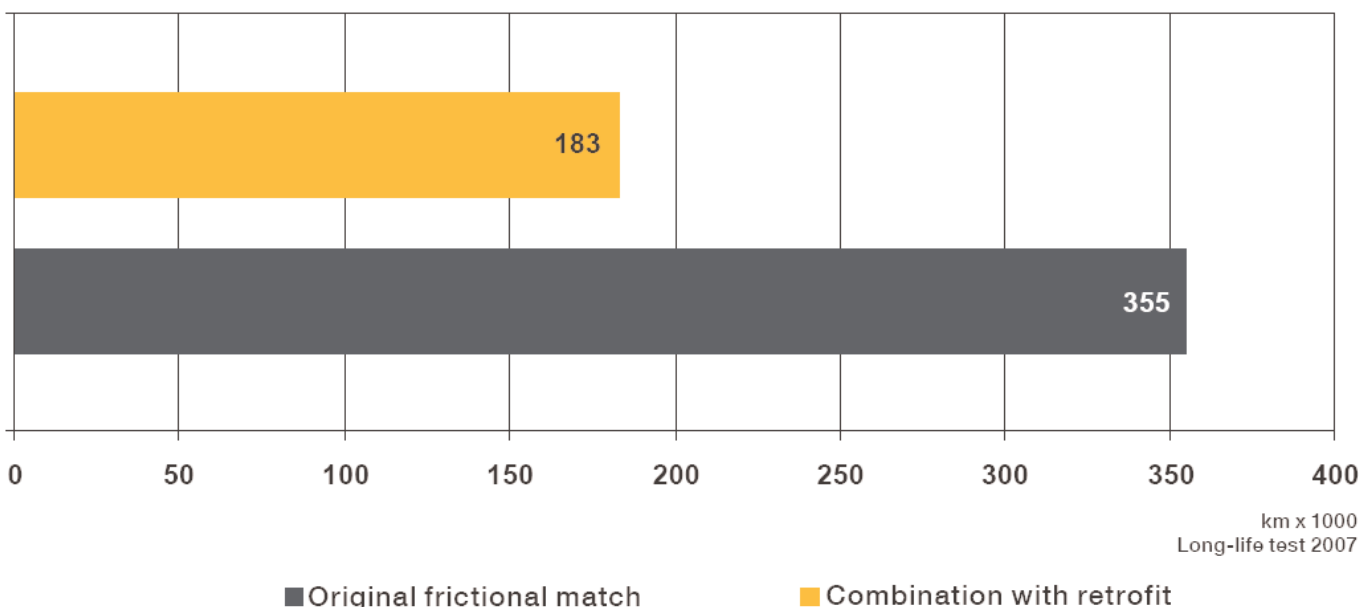

Choose a package for the perfect frictional match on your vehicle, and benefit from attractive prices as much as 25% lower than those for the single parts. Packages available for disc size 22.5", 19.5" and 17.5".

Whether a package or single parts, MAN Genuine keeps you on course.

Why buy MAN Genuine brake packages from MAN?

- Perfectly matched frictional pair for double the service life through less wear and tear
- Optimal holding of linings in brake system through included lining springs and retainers.
- Secure join between lining material and lining backplate through mechanical anchoring.
- Optimal material composition despite temperatures of more than 500°C.
- Specific heat dissipation against partial wear of the disc that can lead to tearing, knocking or breakage.

Benefit from this kind of experience, choose MAN Genuine brake discs and brake pads. An optimum matching of MAN Genuine frictional parts rewards you with a cost saving of some 25% over six years because of the longer service life compared to the use of non-original parts.
